

Comprehensive Portal / Agricultural Licensing Portal, Department of Agriculture and Farmers Welfare, Punjab

The Comprehensive Portal/Agricultural Licensing Portal would create one stop shop for meeting all informational needs relating to Department of Agriculture & Farmers Welfare, Punjab and its stakeholders. This would strengthen the Department of Agriculture & Famers Welfare, Punjab by bringing in more transparency through a unified architectural approach. This application would consist of end to end regulatory mechanism related to Licensing (Pesticides, Fertilisers & Seeds). This application is being developed by the Department of Governance Reforms & Public Grievances (DGRPG), Punjab.

As envisaged above, the regulatory mechanism for Licensing of Pesticides, Fertilizers & Seeds has been delivered to citizens by online Web Portal available through URL <https://eagriservices.punjab.gov.in>. The key features of this service are facility for applying online, payment of Fees, tracking of application, user Profile maintenance, online certificate download and processing of the application / delivery of the service in a time bound manner. In addition, a Dashboard has been created for effective monitoring of this application.

Until now, #78 Licensing services have been incorporated in this application and are live in production. The future line of action includes the development of Quality Control module for Fertilisers & Seeds, MIS reporting and Mobile App for all the services.
